Table of Contents

NMR Spectra of alkynol substrate 5a-d and 5e' ................................................................. S2
NMR Spectra of alkynol substrate 10a-d and 10f ................................................................. S11
NMR Spectra of cyclized product 7a-d and 7e' ................................................................. S21
NMR Spectra of cyclized product 11a-d and 11e' ............................................................. S40
NMR spectra of reaction of 5a in NMR tube ................................................................. S50
NMR spectra of reaction of 10a in NMR tube ............................................................... S51

Fig. S49. Comparison of $^1$H NMR of reaction mixture of 5a with isolated products

Reaction of 5a in NMR tube
Showed only the mixture of 7a & 6a and no endo methylene product
Reaction of 10a in NMR tube
Showed only the mixture of 11a and
no exo methylene product

Figure S50. Comparison of \(^1\)H NMR of reaction mixture of 10a with isolated products
